

SIMPLE GRIP-SQ®

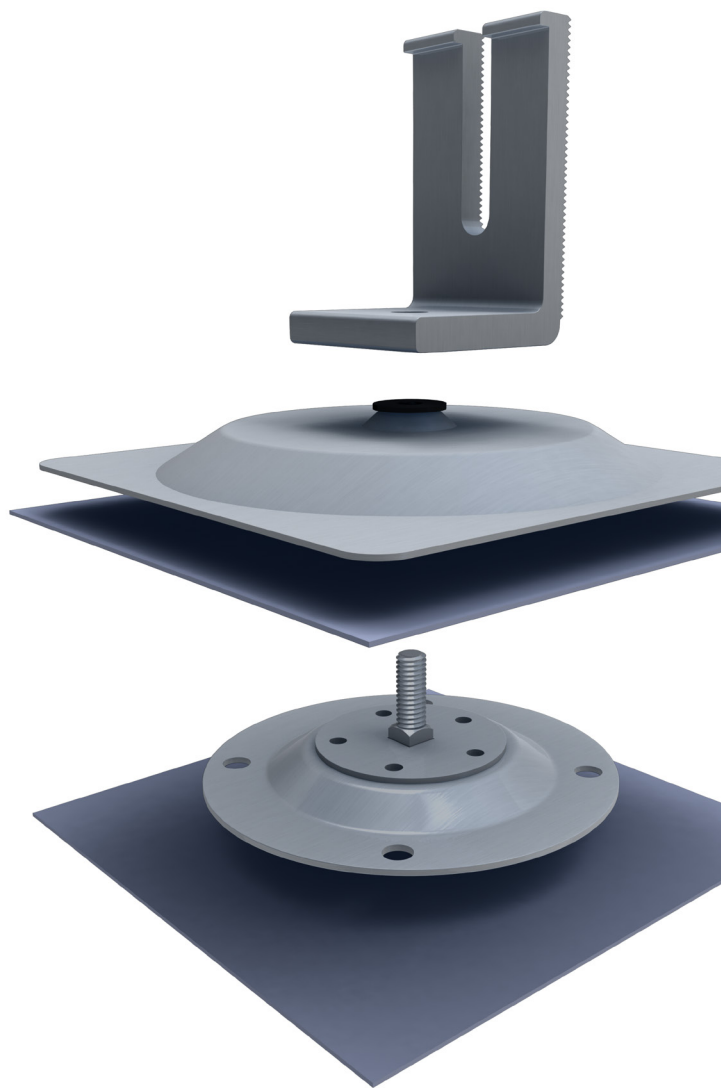

THE SELF-FLASHED SOLUTION FOR LOW SLOPE ROOFS

SimpleGrip-SQ is designed to attach PV modules to rolled-asphalt or other low slope roofs. The base is compressed between two layers of butyl tape to create a watertight seal without the need for additional flashing. The compression plate protects the butyl and features a watertight grommet that can be combined with any EcoFasten bracket.

FEATURES & BENEFITS

- Patented watertight technology
- Four self-drilling screws provide optimum uplift and a fast installation
- UV ray shielded mastic prevents degradation
- Installs without cutting into the roof

ADHESIVE BUTYL TAPE FLASHES THE MOUNT COMPLETELY

Low Slope

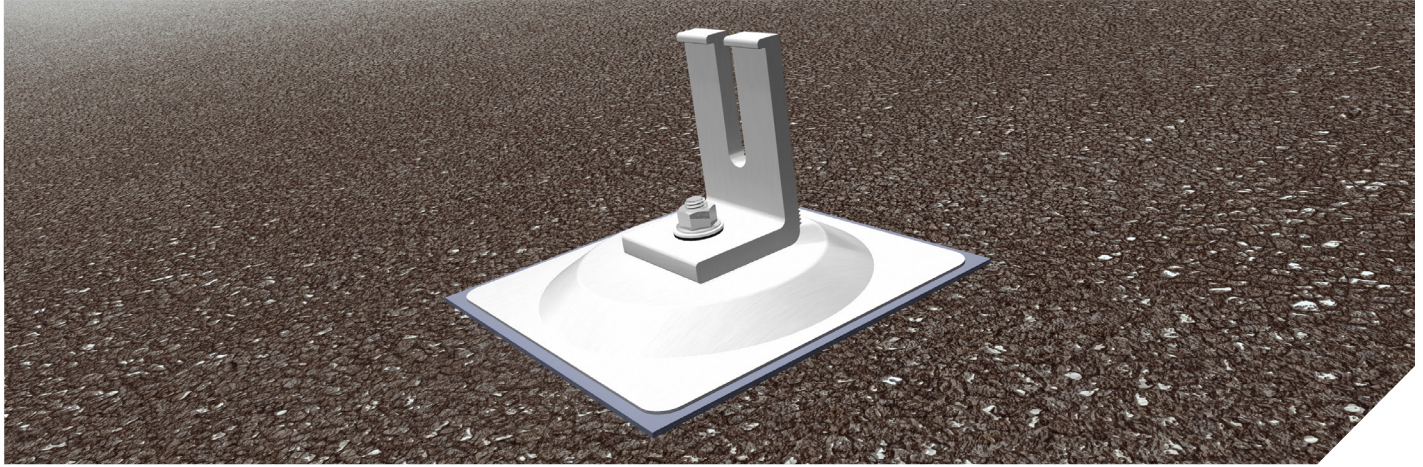

**Rail-Based
Rail-Less**
