## One4Life® Slim ClickTight®

Model Numbers E1D197A-N, E1D197B-N, E1D197F-N or E1D197G-N

Sold through Baby Bunting NZ, Baby on the Move, Baby City, Babies.co.nz and Dimples by Jane Anne between 4/11/2024 and 25/11/2024

**Defect:** The weight limit for the lower connectors displayed on the product and in the User Guide is incorrect. Actual 40 lb. (18.1kg) should read 35lb. (15.9kg)

**Hazard:** If the One4Life Slim seats are installed rear-facing with lower connectors at the 40 lb. (18.1kg) weight limit listed, the child may not adequately be protected from injury in the event of a crash.

**What to do:** Consumers with affected seats should not exceed the correct 35 lb. (15.9kg) weight limit if using lower connectors or use the ClickTight installation method. They should then contact Britax to arrange rectification of their seat.
