

AUS NEWBORN INFANT INSERT COMPATIBILITY CHART

The Britax Newborn Infant Insert provides full-body comfort and added support for your baby, with removable shoulder pads for smaller infants. Made from naturally soft, skin-friendly fabric, it's sustainably produced from organic cotton and fast-growing bamboo. Quick-drying and machine washable, the Newborn Infant Insert is designed for everyday ease.

The insert may be used 'stacked' on top of the standard insert or on its own in compatible Britax baby capsules or rear-facing convertible child restraints. If maximum support is required, the insert should be used stacked.

For your peace of mind we have tested this insert to the AS/NZS1754 Standard with our car seats to ensure your newborn is cocooned in comfort and safety.
