

Tesla Model YL – Child Restraint Installation

Contents

Child Restraint Types

- Capsule – Single Tether
- Convertible – Rear Facing
- Convertible – Forward Facing
- Rotating Restraint
- Type G or Harnessed Booster
- Tethered Booster

Capsule – Single Tether

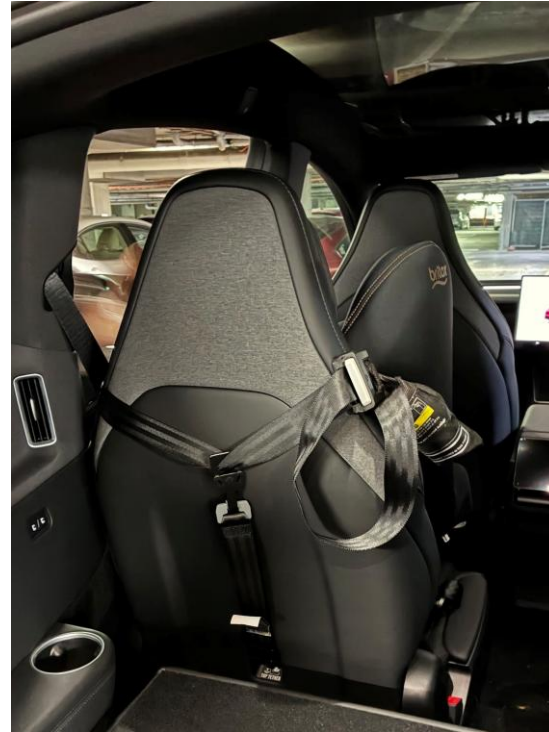

1. Not suitable for Installation in 2nd Row due to possibility of Tether slipping off headrest
2. Recommend Installation in 3rd Row only

Convertible – Rear Facing

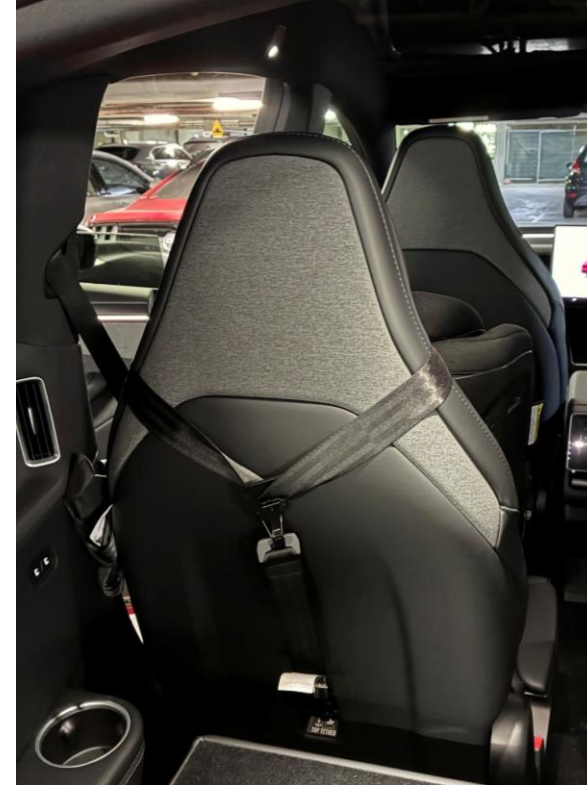

1. Install Restraint as normal using Seatbelt or Isofix
2. Top Tether on restraint to be tensioned to prevent it slipping over seat “shoulders”.
3. Adjustable Extension strap to be used to tension down to anchor point.

Convertible – Forward Facing

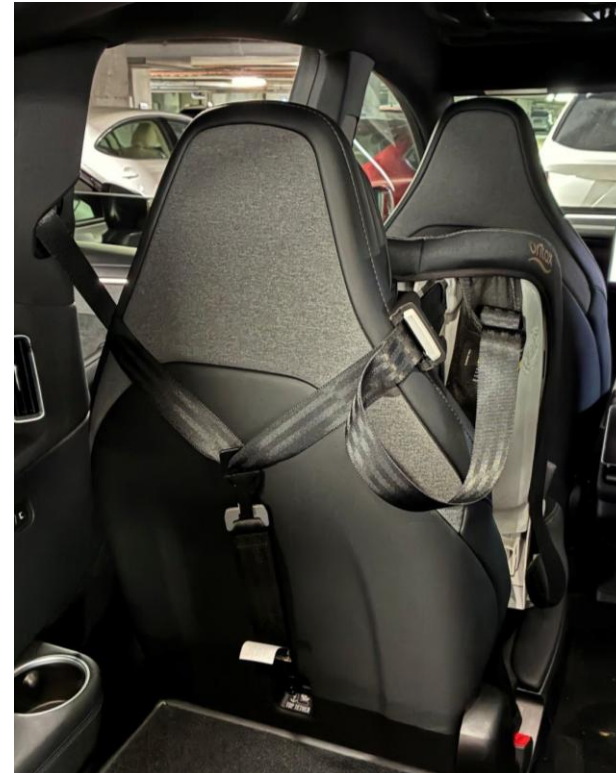

1. Install Restraint as normal using Seatbelt or Isofix
2. Attach 300mm Extension Strap to Anchor Point and Top Tether
3. Tighten top tether around Seat above "Shoulders"

Rotating Restraint

1. Install seat as normal using Seatbelt
2. Attach 300mm Extension Strap to Anchor Point and Top Tether
3. Tighten top tether around Seat above "Shoulders"

Type G or Harnessed Booster

1. Install seat as normal using Seatbelt
2. Attach 300mm Extension Strap to Anchor Point and Top Tether
3. Tighten top tether around Seat above "Shoulders"

Tethered Booster

1. Position Booster on Seat
2. Attach 300mm Extension Strap to Anchor Point and Top Tether
3. Tighten top tether around Seat above "Shoulders"

Notes:

1. The use of a single Top Tether over the Headrest in the 2nd Row is not recommended due to the potential of this slipping off with the vehicle seat design. This also applies to the method recommended in the Vehicle Manual for Split Tethers where it talks about pulling the sides together to create a single tether.
2. The Split Tether Installations shown here have been tested by Tesla to the requirements of ADR34 and their Vehicle Manual will soon be updated to capture these. Always be sure to follow the latest recommendations from your vehicle manufacturer because they could be subject to change.
3. Should you have any questions or concerns, please consult with your Tesla Dealer or contact Britax Customer Service on 1300303330 or aunz-support@britax.com
