

Crash Exchange Application

Our Crash exchange is a **voluntary program** and does not always guarantee a replacement car seat in the event of an accident. Each accident is dealt with as a case-by-case claim.

Some insurance companies offer vehicle insurance which covers a free replacement child restraint. **Contact your insurance company first for further details.** Your insurance company may require you to keep the child restraint for assessment, but do not use the child restraint after a severe crash. We consider a "severe crash" as being one where the chassis of the vehicle is damaged. If your restraint has been involved in a severe crash, the restraint should not be used until an assessment has been made.
